Supplier handoff

- Page 1 is the Standard White Box from the first visual identity design.
- Page 2 is the matching Premium Royal Box option.
- Keep logo, waves and barcode label positions as shown unless die-cut engineering requires a small shift.
- Final locking tabs can be adjusted by the box manufacturer, but external size must remain unchanged.
- Send a proof before printing because royal purple varies between printers.

Barcode sticker 100 x 70 mm
