

Storage & Packaging System

A complete customer-facing storage system: frosted folded-clothes bags, barcode labels, glass caps storage and glass shoes storage near the entry.

COMPONENTS

- Folded clothes: semi-transparent frosted bags with logo.
- Dynamic sticker: item quantity, shelf and barcode.
- Caps: lockable glass cabinet near entrance.
- Shoes: lockable glass cabinet with boxed packaging.
- Shoe boxes: standard white plus premium royal option.

DESIGN RULE

- Use glass where customers can see clean premium handling.
- Use frosted packaging where privacy and cleanliness matter.
- Keep all barcode labels generated by the POS/order system.

Folded Clothes Bag System

LABEL DATA RULES

- Label data should come from the laundry order system, not typed manually.
- Minimum label size: 90 x 60 mm for bags; 100 x 70 mm for shoe boxes.
- Barcode links to the order ID. QR can open order details or customer pickup screen.
- Quantity fields must be prominent: FOLDED QTY for folded clothes and SHOES QTY for shoes.
- Shelf code must match physical shelf/cabinet labels.

Glass Storage Near Entrance

CABINET SPEC

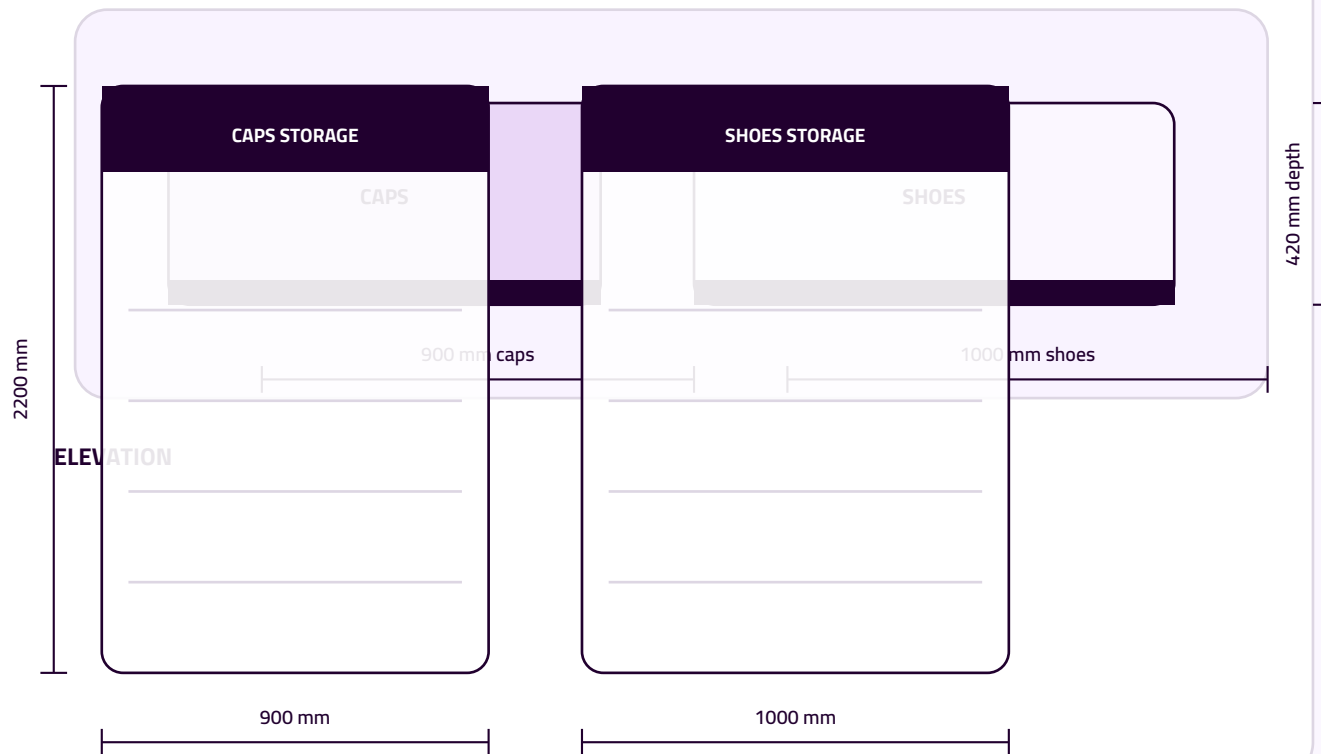

- Tempered glass doors, lockable.
- Brushed silver frame with deep-plum fascia.
- Internal vertical LED strips, 4000K.
- Ventilated lower plinth for shoes cabinet.
- Adjustable glass shelves.

PLACEMENT

- Install near entrance door from the inside.
- Do not block door swing or accessibility route.
- Keep visible from reception but secured.
- Coordinate with storefront glass and electrical outlets.

Storage Footprint & Elevation

INDICATIVE PLAN

DIMENSION BASIS

- Caps cabinet: 900 W x 420 D x 2200 H mm.
- Shoes cabinet: 1000 W x 450 D x 2200 H mm.
- Final width may adjust to door/wall condition.
- Allow 900 mm clear walkway in front.

SAFETY

- Use tempered glass and soft-close locks.
- Anchor cabinets to wall/floor.
- Keep shoe cabinet ventilated.
- No sharp shelf edges.

BARCODE LABEL (CLOSE-UP)

PACKAGING DECISION

- Use white box as the standard option: cleaner, brighter and easier to print.
- Use deep royal plum box as premium/VIP option.
- Add barcode sticker on side for scanning while stacked.
- Use branded tissue paper inside the box.

BOX SIZES

- Standard adult: 340 x 220 x 130 mm.
- Large shoes: 380 x 260 x 150 mm.
- Kids/small: 280 x 180 x 110 mm.
- Material: rigid white carton or laminated corrugated board.

Supplier & Engineer Handover

WHAT TO PRODUCE NEXT

- Final cabinet shop drawings after measuring the entrance wall, door swing and storefront glass.
- Artwork files for bag print, shoe box print and barcode label template.
- POS/order system mapping: order ID, customer, quantity, shelf code, barcode and pickup status.
- Material samples: frosted pouch, white carton, royal plum carton, glass frame, LED strip.
- Prototype one folded-clothes bag and one shoe box before bulk production.
- Confirm shelf coding system with the operational clothes sorting workflow.

APPROVAL POINTS

- Approve bag opacity and logo size.
- Approve label fields and barcode format.
- Approve glass cabinet location near door.
- Approve standard white and premium royal shoe boxes.

OPERATIONS NOTES

- Folded bags must scan without removing from shelf.
- Caps and shoes storage must be lockable.
- Boxes should be stacked with labels facing out.
- Shelf codes should match the LED sorting/address system.
